Height	25mm - 150mm
Thickness	1.6mm - 3mm

*As per customer specification

LADDER TYPE CABLE TRAYS

Length	2500mm/3000mm
Width	100mm - 1000mm
Height	50mm - 150mm
Thickness	1.5mm - 3mm

*As per customer specification

EARTHING MATERIALS

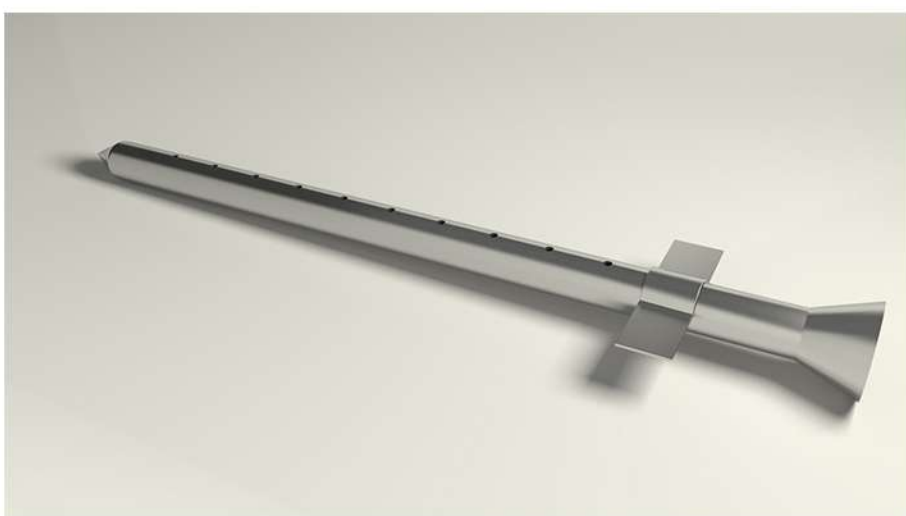

Tamra makes high performing Earthing materials used in electrical systems. The **earthing** is to provide an alternative channel to flow fault current, so that the impact will not harm the equipment. We manufacture as per customer's specifications. Our range includes Earthing Strips/Flats, GI Pipe/Rod Electrodes, CI Pipe/Rod Electrodes etc. as per IS 3043.

EARTHING STRIPS AND FLATS

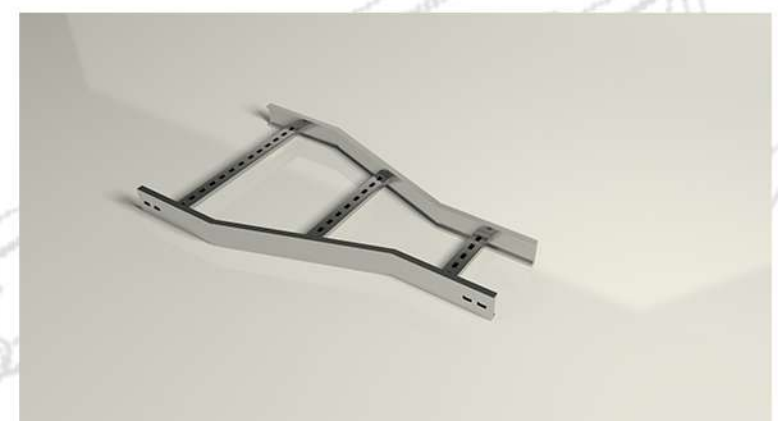

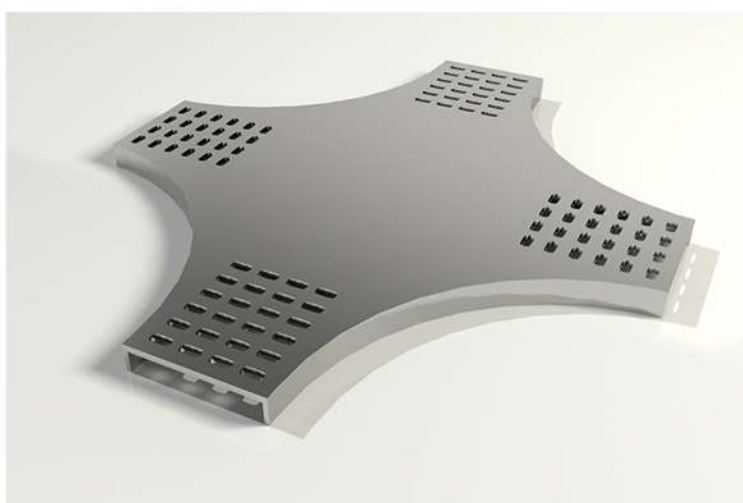

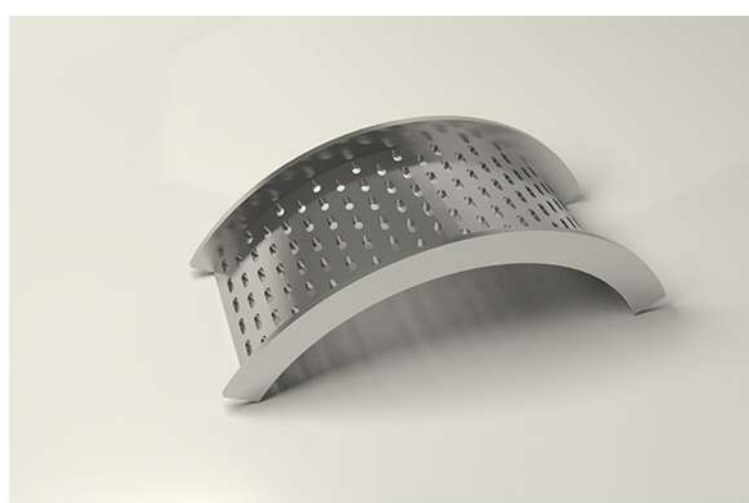

We provide Earthing Strips/Flats in various dimensions and specifications to meet our customer requirements. Our products have good thermal and electrical conductivity.

GI PIPE/ROD ELECTRODES, CI PIPE/PLATE ELECTRODES

Our Electrodes are robust in combustion, which provide excellent durability and good earthing. We use fabricated pipes which are widely used in earthing applications.

ACCESSORIES OF LADDER AND PERFORATED TRAYS

TAMRA WIRES

**Suraksha Aapki.
Saath Hamara.**

FR PVC Insulated Industrial Cables

Features :

- Range : 0.5 to 400 sq. mm in Single Core & Multicore Cable
- FR-LSH/HR/ZHFR Insulation.
- High Insulation Resistance
- Double Insulation with Ultra thin Layer.
- Fully automatic wire drawing machine and testing facilities.
